

## DESIGN

The EASY seating line is a range of seating for meetings and visitors that guarantee a reactive movement and immediate comfort for the collaborative spaces.

The design, shaped by the London forpeople studio, uses four main parts to create all the models that are part of the range, in order to maintain a uniform visual appeal.

## PERFORMANCE

The movement of EASY reacts to changes in position thanks to the elastic polymers of the materials.

It gently reclines up to 7 degrees allowing at the same time to assume a more advanced position.

Each of the variants of the EASY seating line is equipped with the same movement.

The system supports posture changes, allowing you to stay comfortable and therefore keep your attention.

## MATERIALS

A key aspect of the forpeople approach to design was to make sure that each variation of the session retained the same visual appeal.

To achieve this, the design is based on four fundamental components: the base, the cradle, the seat shell and the range of fabric or leather upholstery.

The detailed outline of the seat not only contributes to the aesthetic lightness, but also guarantees the ventilation necessary for a prolonged fresh.

**base:** metal - wheels/leg/bench/stool

**coque:** PA white/PA black

**upholstery:** fabric - black/lavender/green/orange

**family:** tasks/managerial chairs

**maximum weight:** 160 Kg

**seat depth:** 420 mm

**seat height:** 450 mm
